

# Sale of AIM® Product Line to Symetrics Industries

This Marketing Bulletin is applicable to the following list of products:

- AIM® 520 Series (All Variants)
- AIM® 205 Series (All Variants)
- AIM® 1100 Series (All Variants)
- AIM® 1200 Series (All Variants)

On June 24, 2014, L-3 Avionics Systems completed the sale of its AIM® line of Attitude Indicators and Directional Gyros to Extant Components Group Intermediate, Inc. and their wholly owned subsidiary Symetrics Industries.

Effective July 14, customers seeking to purchase, or in need of information or support for any of the listed products should contact Symetrics directly using the information listed below. Under the terms of an Agreement in place between L-3 Avionics Systems and Symetrics, L-3 will continue to manufacture and repair the listed products during an interim transition period while the products are relocated to Symetrics facilities in Melbourne, Florida. It is expected the full transition will be completed within the next three months.

L-3 will offer its full support to Symetrics Industries during the product line transition and is excited to see Symetrics Industries commitment to sustaining the quality, sales and support of the AIM product family.

Symetrics Industries was founded in 1962 and manufactures and repairs complex electronics and avionics assemblies for military, commercial, and business and general aviation operators. The company’s product portfolio features a range of communication, control, sensing, imagery, instrumentation, and display systems and LRUs including Data Modems, SatCom Systems, Integrated Instrumentation systems and displays, VHMS, Digital Video Recorders and related imagery solutions.

Symetrics is approved under 14 CFR Part 21, Part 145 and EASA Part 145. They are also certified under AS 9100 Revision C and ISO 9000. The facilities are ITAR registered and compliant.

Contact information for Symetrics is as follows:
