

## Shipping and Import Instructions for Product Returns to Extant Aerospace

To ensure Extant Aerospace provides you with exceptional service and turn times, as well as help reduce shipping and customs clearance costs and transit time, we respectfully request the following guidelines be followed for all international shipments.

1. Please contact the Extant Customer Service team and a representative will provide an RMA for the return of your items. We request this be included in your shipment documentation and written on the outside of the package. This will expedite the unit through the receiving process as soon as it hits at our dock.
2. All Products that are returned from outside of the United States must be in appropriate protective packaging and clearly marked "Goods being Returned for Repair" on both the outside of the package and on all shipment documentation.
  - Commercial products returned for repair must include the following statement on all shipping documentation: *Origin/Manufactured Goods Returned for Repair. HTS 9801.00.1012*
  - Military products returned for repair must include the following statement on all shipping documentation: *U.S. Goods Returned for Repair under authority of 22 CFR 123.4(a)(1). HTS 9801.00.1012*
3. Please complete a "Foreign Shippers Declaration of Goods Returned" form, included after these instructions.

Extant Aerospace will assist with the clearance through customs as necessary. If there are any questions or concerns, please feel free to contact us or our designated Freight Forwarder and Customs Broker.

Extant Aerospace  
1615 W. NASA Blvd.  
Melbourne, FL 32901
