Extant Aerospace Announces Acquisition of Moog, Inc Electro-Optical Tracker and Camera System Assets and Intellectual Property

Melbourne, Florida, March 29, 2022 – Extant Aerospace (Extant), the leader in licensing, obsolescence management, and lifecycle sustainment services for aerospace avionics, electronics, and electromechanical products, announced today that it has completed the acquisition of all the assets and technical data rights pertaining to the Electro-Optical Tracker and Camera systems from the operations of Moog, Inc (Moog) in Melbourne, Florida.

The Tracker and Camera systems support weapon systems, test range instrumentation, EW systems and long-range optical tracking. These systems are primarily used in land-based and maritime platforms supporting Defense markets as well as some Space-based applications.

“We are very pleased to add the Tracker and Camera systems to our business portfolio and proud to have earned the confidence and trust of Moog’s management in Extant’s ability to sustain these systems into the future”, said Jim Gerwien-Moreta, Executive Director of Extant Aerospace.

“These products align very well with Extant’s core business focus and unique supporting infrastructure for the sustainment of complex electronic systems, and we will continue to produce and maintain the Tracker and Camera systems with a high level of service and reliability for many years to come.”

About Extant Aerospace

Extant Aerospace (www.extantaerospace.com), a subsidiary of TransDigm Group Incorporated (NYSE:TDG), with headquarters in Melbourne, FL, specializes in supporting Original Equipment Manufacturers (OEMs) with product licensing, obsolescence management and reengineering, lifecycle sustainment, and counterfeit prevention services for aging, non-core electronics, avionics and electromechanical products used in various, military, business and general aviation, and commercial airline applications.

Extant’s programs and resources provide a high quality solution to the challenges that often accompany the continuing aftermarket support of these systems and components and

enable OEMs to focus their resources on more current products and new product research and development. Extant is well positioned with both the technical expertise and capital resources needed to provide OEMs with immediate value for non-core assets, a timely and successful product line transition, and a continuing high level of aftermarket customer service and support.
