Extant Aerospace Announces License Agreement with ITT Inc. of the Seat Actuation (Enivate) Product Line

Melbourne, Florida, May 19, 2023 – Extant Aerospace (Extant), the leader in licensing, obsolescence management, and lifecycle sustainment services for aerospace avionics, electronics, and electromechanical products, announced today that it has completed the acquisition of all the assets and the license of all the technical data rights pertaining to the Seat Actuation product line from the operations of ITT Inc. in Valencia, CA.

The Seat Actuation product line consists of premium aerospace seat actuation and motion control systems used primarily in super first class, first class, and business class airline seating applications under the brands of Enivate, a seat controls and software system and SkyMotion. Both product lines provide customized motion control for the ultimate in passenger comfort and safety.

“We are very pleased to add the Seat Actuation product line to our business portfolio and proud to begin a relationship with ITT Inc.”, said Eric Hilliard, President of Extant Aerospace.

“These products align very well with Extant’s core business focus and unique supporting infrastructure for the sustainment of complex electro-mechanical systems, and we will continue to produce and maintain the Seat Actuation products with a high level of service and reliability for many years to come.”

About Extant Aerospace

Extant Aerospace (www.extantaerospace.com), a wholly-owned subsidiary of TransDigm Group Incorporated (NYSE:TDG), with headquarters in Melbourne, FL, specializes in supporting Original Equipment Manufacturers (OEMs) with product licensing, obsolescence management and reengineering, lifecycle sustainment, and counterfeit prevention services for aging, non-core electronics, avionics and electromechanical products used in various, military, business and general aviation, and commercial airline applications.

Extant’s programs and resources provide a high-quality solution to the challenges that often accompany the continuing aftermarket support of these systems and components and enable OEMs to focus their resources on more current products and new product research and development. Extant is well positioned with both the technical expertise and capital

resources needed to provide OEMs with immediate value for non-core assets, a timely and successful product line transition, and a continuing high level of aftermarket customer service and support.
