Extant Aerospace Announces New License Agreement with L3Harris Fuzing and Ordnance Systems CyTerra Products

Melbourne, Florida, May 31, 2022 – Extant Aerospace (Extant), a leader in licensing, obsolescence management, and lifecycle sustainment services for aerospace avionics, electronics, and electromechanical products announced today that it has agreed to acquire all assets and license the technical data rights related to the CyTerra Products from L3Harris Technologies (NYSE: LHX). Terms of the agreement were not disclosed.

The CyTerra products provide handheld detection for mines and Improved Explosive Devices (IEDs) along with detectors which can determine the location of objects through walls. The portfolio consists of three active product families and include AN/PSS-14 handheld mine and Improved Explosive Device (IED) detector, MTL-DS detector, and Range-R through wall detector. These products primarily serve the US Army as well as partner countries globally.

“We are very pleased to continue our longstanding and successful relationship with L3Harris”, said Jim Gerwien-Moreta, Executive Director of Extant Aerospace. “The CyTerra products are an excellent fit, and we look forward to supporting customers and sustaining the systems for many years to come.”

About Extant Aerospace

Extant Aerospace (www.extantaerospace.com), a wholly-owned subsidiary of TransDigm Group Incorporated (NYSE:TDG), with headquarters in Melbourne, FL, specializes in supporting Original Equipment Manufacturers (OEMs) with product licensing, obsolescence management and reengineering, lifecycle sustainment, and counterfeit prevention services for aging, non-core electronics, avionics and electromechanical products used in various, military, business and general aviation, and commercial airline applications.

Extant’s programs and resources provide a high-quality solution to the challenges that often accompany the continuing aftermarket support of these systems and components and enable OEMs to focus their resources on more current products and new product research and development. Extant is well positioned with both the technical expertise and capital resources needed to provide OEMs with immediate value for non-core assets, a timely and successful product line transition, and a continuing high level of aftermarket customer service and support.
