Extant Components Group Subsidiary Receives EASA Part 145 Approval

Melbourne, Florida, September 4, 2013 – Extant Components Group Holdings, Inc., a leader in licensing, obsolescence management, and sustainment services for mature aerospace electronics and avionics products, today announced that its wholly-owned subsidiary, Symetrics Industries, had been certified by the European Aviation Safety Agency (EASA) as an approved Part 145 maintenance organization.

Headquartered in Melbourne, FL, Symetrics manufactures and repairs complex electronics and avionics assemblies for military, commercial, business and general aviation operators and OEMs. The company's product portfolio features a range of communication, control, sensing, imagery, and display systems and LRUs.

Symetrics is also approved under 14 CFR Part 21 and Part 145, AS 9100 Revision C, and ISO 9001:2008 and its facilities are ITAR registered and compliant.

Extant Chief Executive Officer (CEO) Jim Gerwien said, "We are very pleased and proud for Symetrics to be recognized by EASA as a Part 145 approved organization. We are adding an ever growing number of OEM licensed commercial aerospace products to our portfolio and our EASA 145 approval further increases our ability to support customers on a global scale."

About Extant Components Group

Extant Components Group, a Warburg Pincus portfolio company, and its wholly-owned subsidiary Symetrics Industries, with headquarters in Melbourne, FL, specializes in supporting Original Equipment Manufacturers (OEMs) with product licensing, obsolescence management and reengineering, lifecycle sustainment, and counterfeit prevention services for aging, non-core avionics and electronics products used in various commercial, military, business and general aviation applications.

Extant's licensing programs provide a high quality solution to the challenges that often accompany the continuing aftermarket support of these systems and components and enable OEMs to focus their resources on more current products and new product research and development. Extant is well positioned with both the technical expertise and capital resources needed to provide OEMs with immediate value for non-core assets, a timely and successful product line transition, and a continuing high level of aftermarket customer service and support.
