Extant Aerospace Announces Acquisition of L3Harris Targa Data Transfer System Products

Melbourne, Florida, October 6, 2021 – Extant Aerospace (Extant), a leader in licensing, obsolescence management, and lifecycle sustainment services for aerospace avionics, electronics, and electromechanical products announced today that it has agreed to acquire all assets and technical data rights related to the Targa Data Transfer System (DTS) product portfolio from L3Harris Technologies (NYSE: LHX). Terms of the agreement were not disclosed.

The L3Harris DTS products provide compact, self-contained systems that enable military, civil, and commercial airline users to upload, store, and retrieve critical flight and mission data. The portfolio consists of three product families and include various Data Transfer Units (DTU), removable Data Transfer Devices (DTD), and related Ground Support Units (GSU) that have been installed on a wide range of fixed wing and rotary wing aircraft.

“We are very pleased to continue our longstanding and successful relationship with L3Harris”, said Jim Gerwien-Moreta, Executive Director of Extant Aerospace. “The DTS products are an excellent fit and compliment to a number of our existing products and we look forward to supporting customers and sustaining the systems for many years to come.”

About Extant Aerospace

Extant Aerospace (www.extantaerospace.com), a TransDigm company, with headquarters in Melbourne, FL, specializes in supporting Original Equipment Manufacturers (OEMs) with product licensing, obsolescence management and reengineering, lifecycle sustainment, and counterfeit prevention services for aging, non-core electronics, avionics and electromechanical products used in various, military, business and general aviation, and commercial airline applications.

Extant’s programs and resources provide a high-quality solution to the challenges that often accompany the continuing aftermarket support of these systems and components andenable OEMs to focus their resources on more current products and new product research and development. Extant is well positioned with both the technical expertise and capital resources needed to provide OEMs with immediate value for non-core assets, a timely and successful product line transition, and a continuing high level of aftermarket customer service and support.
