**For Immediate Release**

***Extant Components Group to Acquire  
Customer Specified Avionics Product Line***

**Melbourne, Florida, October 20, 2014** – Extant Components Group Holdings, Inc. (Extant), a leader in licensing, obsolescence management, and sustainment services for aerospace electronics, avionics, and electromechanical products today announced it has signed an agreement to acquire the Customer Specified Avionics (CSA) product line from Rockwell Collins. Terms of the agreement were not disclosed.

The CSA products are being transitioned to Extant's FAA-approved manufacturing and repair center facilities in Melbourne, Florida where all future manufacturing, repair, spares, customer service, and related technical support will be provided.

The CSA product line was developed to meet platform-specific design requirements for multiple airframe OEMs and is made up of more than 100 individual part number assemblies including electronic controls, audio and annunciator panels, current sensors, and converters. The installed base includes a wide range of business jets and the products remain in active production.

Extant Chief Executive Officer (CEO) Jim Gerwien said, "Extant and Symetrics will continue to sustain and support this important group of products. We look forward to being of continued service to our customers."

Customers can find additional details [www.extantcomponentsgroup.com](http://www.extantcomponentsgroup.com).

**About Extant Components Group**

Extant Components Group, a Warburg Pincus portfolio company, and its wholly-owned subsidiary Symetrics Industries, with headquarters in Melbourne, FL, specializes in supporting Original Equipment Manufacturers (OEMs) with product licensing, obsolescence management and reengineering, lifecycle sustainment, and counterfeit prevention services for aging, non-core electronics, avionics and electromechanical products used in various commercial, military, business and general aviation applications.

---

Extant's programs and resources provide a high quality solution to the challenges that often accompany the continuing aftermarket support of these systems and components and enable OEMs to focus their resources on more current products and new product research and development. Extant is well positioned with both the technical expertise and capital resources needed to provide OEMs with immediate value for non-core assets, a timely and successful product line transition, and a continuing high level of aftermarket customer service and support.

### **About Rockwell Collins**

Rockwell Collins is a pioneer in the development and deployment of innovative communication and aviation electronic solutions for both commercial and government applications. Our expertise in flight deck avionics, cabin electronics, mission communications, simulation and training, and information management services is delivered by a global workforce, and a service and support network that crosses more than 150 countries.
