Extant P/N: DM-CT-0304

OEM P/N: 81995-DM-001-304

NSN: 5895-01-493-4396

*Please contact Program Manager or Customer Service for additional information

Product Overview

The IDM-304 (MD-1359/A) helped enable the US Army Aviation's battlefield digitization initiative on the Apache, Blackhawk, Chinook, and Kiowa platforms. Sharing the same form factor as the IDM-302, it provides 6 channels of radio interoperability as well as Blue Force Tracker and IP network connectivity.

Extant has delivered over 1,300 units and currently serves as the depot for the US Army and FMS users.
